

Ronald F. Pfeiffer, MD, received his undergraduate and medical degrees from the University of Nebraska. Internship and neurology residency were completed at the Walter Reed Army Medical Center. He joined the faculty of the University of Nebraska Medical Center in 1980. In 1994 he moved to the University of Tennessee Health Science Center and is now Professor and Vice Chair of Neurology. His research, teaching and clinical practice focus on Parkinson's disease. He has extensive experience in clinical trials and a particular interest in gastrointestinal dysfunction in Parkinson's disease. Dr. Pfeiffer

has been author or co-author of over 240 journal articles or book chapters and is co-editor of three books. He became Co-Editor in Chief of the journal, *Parkinsonism and Related Disorders*, in 2008. He is a member of the Parkinson Study Group and is currently a member of its Scientific Review Committee. He is chairman of the CME Committee of the Movement Disorder Society and a member of the Research Committee on Parkinsonism and Related Disorders of the World Federation of Neurology. Dr. Pfeiffer received an honorary Doctor of Laws degree from Concordia University-Nebraska in 2001 and is currently a member of the Board of Regents at Concordia.
